Privacy Compliance Policy - U.S. and EU-Mandated Requirements

Overview

Mandated privacy requirements are designed to protect the individual's privacy from

ation in possession of an entity is sonal information in the possession of edures, and assigns responsibilities, for

ctivities at ENTERPRISE associated with

This information includes but is not limited to social security numbers, credit card numbers,

credit card expiration dates, security codes, passwords, customer names, customer numbers, ENTERPRISE proprietary data, and any other data (i.e. California Personal ID number).

This policy applies to the entire enterprise, its vendors, its suppliers (including outsourcers), and co-location providers and facilities regardless of the methods used to store and retrieve this information (e.g. online processing, outsourced to a third party, Internet, Intranet, or swipe terminals).

All processing, storage, and retrieval activities for this information must maintain strict access control standards and the Chief Security Officer mandates these specific policies be followed.

Right to Privacy

The right to privacy has been defined in two major pieces of legislation – one for the EU (GDPR) and the other in the California Privacy Act:

- **The right to know what personal information is being collected about them.**
- The right to know whether their personal information is sold or disclosed and to whom.
- ♣ The right to say no to the sale of personal information.
- The right to access their personal information.
- The right to equal service and price, even if they exercise their privacy rights.

The definition of the specifics of the legislation and policies necessary to comply follows. All individuals capturing, viewing, or using consumer data need to follow the rules and guidelines to meet the Privacy Compliance Mandates.

California Consumer Privacy Act

Under the California Consumer Privacy Act, the following set of privacy requirements are mandated: and policies are to be followed.

Consumer's Right to Know Information that Has Been Captured

the consumer with notice consistent with this section.

se that collects a consumer's personal pecific pieces of personal information the

on shall, at or before the point of collection, tion to be collected and the purposes for which terprise shall not collect additional categories ed for additional purposes without providing

- 3. An Enterprise shall provide the information specified in subdivision (a) to a consumer only upon receipt of a verifiable consumer request.
- 4. An Enterprise that receives a verifiable consumer request from a consumer to access personal information shall promptly take steps to disclose and deliver, free of charge to the consumer, the personal information required by this section. The information may be delivered by mail or electronically, and if provided electronically, the information shall be in a portable and, to the extent technically feasible, a readily useable format that allows the consumer to transmit this information to another entity without hindrance. An Enterprise may provide personal information to a consumer at any time but shall not be required to provide personal information to a consumer more than twice in 12 months.
- 5. This section shall not require An Enterprise to retain any personal information collected for a single, one-time transaction if such information is not sold or retained by the business or to reidentify or otherwise link information that is not maintained in a manner that would be considered personal information.
 - (1) Retain any personal information collected for a single, one-time transaction, if the information is not sold or retained by the business.
 - (2) Reidentify or otherwise link any data that, in the ordinary course of business, is not maintained in a manner that would be considered personal information.

Consumer's Right to Have Data Removed

- 1. A consumer shall have the right to request that An Enterprise delete any personal information about the consumer that the business has collected from the consumer.
- 2. An Enterprise that collects personal information about consumers shall disclose the consumer's rights to request the deletion of the consumer's personal information.

nation was collected, provide a good or service requested by the consumer, or reasonably anticipated within the context of An Enterprise's ongoing business relationship with the consumer, or otherwise perform a contract between the business and the consumer.

- (2) Detect security incidents, protect against malicious, deceptive, fraudulent, or illegal activity; or prosecute those responsible for that activity.
- (3) Debug to identify and repair errors that impair existing intended functionality.
- (4) Exercise free speech ensure the right of another consumer to exercise his or her right of free speech, or exercise another right provided for by law.
- (5) Comply with the California Electronic Communications Privacy Act pursuant.
- (6) Engage in public or peer-reviewed scientific, historical, or statistical research in the public interest that adheres to all other applicable ethics and privacy laws, when the businesses' deletion of the information is likely to render impossible or seriously impair the achievement of such research if the consumer has provided informed consent.
- (7) To enable solely internal uses that are reasonably aligned with the expectations of the consumer based on the consumer's relationship with the business.
- (8) Comply with a legal obligation.
- (9) Otherwise use the consumer's personal information, internally, in a lawful manner that is compatible with the context in which the consumer provided the information.

If there are no standard PCI DSS processes in place and each store is responsible for its processes, then the sample size must be larger to ensure that each store understands and implements PCI DSS requirements appropriately.

Privacy and Security Compliance Implementation Work Plan

The privacy and security compliance process to meet the EU's GDPR and California's CCPA is a multi-step process involving both the IT function and the enterprise's operations movement. The focus is on the two prongs of GDPR and CCPA compliance mandates – privacy and security

Define where the enterprise is and the issues it faces.

Define privacy requirements

1. Review existing privacy policies and statements and document how they compare with GDPR and

This is a sample of the final product and these pages are for your review and are protected by Janco's copyright. elete, and transfer personal data ms

https://e-janco.com

ps, benchmark maturity, and establish

- 2. Identify potential vulnerabilities, supporting security and privacy by design
- 3. Discover and classify personal data assets and affected systems in preparation for designing security controls

Define what must be done

Document privacy requirements

- 1. Create a work plan that details your GDPR and CCPR remediation and implementation activities
- 2. Design the policies, business processes, and supporting technologies you'll need to implement your plans
- 3. Create a GDPR and CCPR reference architecture
- 4. Evaluate compliance governance processes

Document security requirements

- 1. Develop a security remediation and implementation plan
- 2. Define a security reference architecture
- 3. Define technical and Key Performance Indicators (KPIs) to reduce risk, including encryption, pseudonymization, access control, and monitoring.
